

Nissan Fuel Pressure Regulator Adapter to AN8 ORB Part #600045

WARNING! Please read the whole guide before installing this part.

Legals:

TAARKS AN8 Fuel Pressure Reg Adapter has been designed and is intended for off-road use only. The installation of this part on a vehicle intended for use on public roads may violate laws and regulations in your country/state. Additionally, this part is sold with a LIMITED warranty that only covers defects in manufacturing. This warranty does not cover any damage incurred by using this part. The installation of this part may also void any vehicle warranties. Refer to a performance specialist for proper installation.

After opening the packaging please check to see if any parts are missing or damaged. If something is missing or damaged please contact us immediately. Do not install the product.

Do not modify this part in any way. Modifying the part may result in failure of the part and voids all possible warranties.

Installation Guide

Start by installing the o-ring onto the fitting as shown below.

Lubricate and install the o-ringed fitting into the end of the fuel rail.

Slide the flange over the adapter.

Lubricate the o-ring on the fuel pressure regulator and press it into the adapter.

Use the supplied M5 allen key bolts and spring washers to mount. Before tightening the M5 bolts make sure to rotate the fuel pressure regulator to the desired angle.

And that's it... You're all done. Enjoy & and thank you for supporting TAARKS.
